

Ski-at-School program grant application

Application deadline: September 15th, 2018 (forward by e-mail to igyapay@cccski.com)

Program description:

The CCC Ski-at-School program powered by AltaGas is aimed at integrating cross-country skiing into the curriculum of elementary and secondary schools across Canada. A Ski-at-School program may be delivered during regular class hours or after school, onsite or nearby, with the support of a local ski club, or as a stand-alone program.

To assist CCC registered clubs and/or schools with starting up and delivering such programs, CCC and AltaGas will provide **one-time grants** to the most promising projects submitted. Individual grants may reach up to \$7500 per program, but cannot represent more than 50% of the program's budget. Guidelines for delivering a successful Ski-at-School program and examples of age appropriate lesson plans and progression are available to all Ski-at-School programs.

CCC-AltaGas grants may be used for purchasing equipment, transportation of children to a cross country ski facility, grooming on the school premises, coaching or any other relevant operating expenses.

Please use the space below to detail out as much of your plans as possible for bringing the Ski-at-School program into a school or several schools in your area.

Section 1: Contact Details.
