Ranking of the sprint races will be determined by the final results from the Heats, not the Qualification Round.

The ranking formula for both the male and female ranking lists will be 10 points for first place, nine points for second place, eight points for third place, and so on. The four highest ranking athletes from each list will be selected.

In the case of a tie for fourth place, where the total points are the same, the athlete selected will be determined by the results of those competitions in which both skiers competed. If there is still a tie, one of the two athletes will be selected using Criteria #6.

6. Further to this, the Selection Committee may make two discretionary selections provided the athletes meet criteria #1-4 above.
7. Selected athletes must travel with and attend the CCBC B-Tour as part of the BC Ski Team.
